- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of proposed collection:

This request for a new information collection will allow ECA/P/V to conduct a survey to provide data not currently available in order to review the experiences of recipients of the Benjamin A. Gilman International Scholarship grant while they were abroad; study the ways in which they shared what they learned with family, peers, and other community members upon returning to the United States; and investigate whether the international experience factored into their subsequent educational and professional choices. This study is authorized by the Mutual Educational and Cultural Exchange Act of 1961, as amended (also known as the Fulbright-Hays Act) (22 U.S.C. 2451 et seq.). The survey will be sent electronically to all grant recipients who studied abroad during the nine-year period spanning the 2002/2003 and 2010/2011 academic years. Data gathered will enable analysis that can potentially be used to design new programs, improve existing programs, and to inform ongoing and future activities.

Methodology:

The survey will be entirely web-based to ease any burden on the participant. The survey will be distributed and responses received electronically using the survey application SurveyGizmo.
